| Rechargeable battery   | Li-ion, 2600mA                  |
| Manufacturer           | KOREA, BallReady                |

- Ball shooting distance may vary based on the condition of the ball.
- Please only use dried kibble or dog food with a max diameter of 0.3inch(1cm)
- Open the lid and clean inside regularly to prevent blockage and for hygiene purposes
- Please remove a cap on the food outlet when you use. a cap should be closed to prevent food flow when you move
- Food storage can store about 5.3(oz)

- Using a charger different from the one provided by BallReady will cause damage or explosion to the product.
- Make sure to use proper voltage as labeled on the BallReady product.
- If BallReady is subject to an external impact, it may not operate properly.
